

## **GUNA S. MUNDHEIM**

### ARTIST STATEMENT

In most of my work, I tend to focus on relationships and rhythms of color shapes that come from nature - plants, trees, landscape forms, that create movement tension and movement.

In these particular paintings, the color shapes are flowing, large and peaceful. There is soft cohesion and a dense protection in the closeness of the trees. They give shelter and home to much other life. There is a sense of harmony and quiet.
